

BRIEF CONTENTS

CHAPTER 1

Introduction to Perception 1

CHAPTER 2

Receptors and Neural Processing 35

CHAPTER 3

The Lateral Geniculate
Nucleus and Striate Cortex 77

CHAPTER 4

Higher-Level Visual Processing 109

CHAPTER 5

Perceiving Objects 145

CHAPTER 6

Perceiving Color 185

CHAPTER 7

Perceiving Depth and Size 225

CHAPTER 8

Perceiving Movement 269

CHAPTER 9

Perception and Action 301

CHAPTER 10

Sound, the Auditory System,
and Pitch Perception 331

CHAPTER 11

Auditory Localization, Sound Quality,
and the Auditory Scene 375

CHAPTER 12

Speech Perception 409

CHAPTER 13

The Cutaneous Senses 435

CHAPTER 14

The Chemical Senses 473

CHAPTER 15

Perceptual Development 509

CHAPTER 16

Clinical Aspects of Vision and Hearing 545

APPENDIX A

Signal Detection: Procedure and Theory 583

APPENDIX B

Determining Spatial Frequencies
Using Fourier Analysis 591
