

mental processes  
*in the* human brain

*edited by*

JON DRIVER

PATRICK HAGGARD

TIM SHALLICE

# Contents

List of Contributors	vii
1. Introduction: Mental processes in the human brain <i>Jon Driver, Patrick Haggard, &amp; Tim Shallice</i>	1
2. From cognitive to neural models of working memory <i>Mark D 'Esposito</i>	7
3. The cognitive neuroscience of constructive memory: remembering the past and imagining the future <i>Daniel L Schacter &amp; Donna Rose Addis</i>	27
4. The human amygdala and orbital prefrontal cortex in behavioural regulation <i>Ray J Dolan</i>	49
5. Beyond the sentence given <i>Peter Hagoort &amp; Jos Van Berkum</i>	69
6. The reign of typicality in semantic memory <i>Karalvn Patterson</i>	85
7. Morphology, language and the brain: the decompositional substrate for language comprehension <i>William D Marslen-Wilson &amp; Lorraine K Tyler</i>	99
8. Modulation of visual processing by attention and emotion: windows on causal interactions between human brain regions <i>Patrik Vuilleumier &amp; Jon Driver</i>	123
9. Levels of processing during non-conscious perception: a critical review of visual masking <i>Sid Kouider &amp; Stanislas Dehaene</i>	155
10. Neural correlates of the contents of visual awareness in humans <i>Geraint Rees</i>	187
11. Function and localization within rostral prefrontal cortex (area 10) <i>Paul W Burgess, Sam J Gilbert, &amp; Iroise Dumontheil</i>	203
12. Is there a dysexecutive syndrome? <i>Donald T Stuss &amp; Michael P Alexander</i>	225
13. Shifting and stopping: fronto-striatal substrates, neurochemical modulations and clinical implications <i>Trevor W Robbins</i>	249
