

OXFORD

a History of
Psychology
Third Edition

John G. Benjafield

CONTENTS

Preface xv

Chapter 1 Psychology and History 1

Questions to Consider	1
Introduction	1
Studying the History of Psychology	2
<i>Person or Zeitgeist?</i>	2
<i>Ixion's Wheel or Jacob's Ladder?</i>	3
<i>The New History of Psychology</i>	4
The New History of Science	4
Feminism and the Psychology of Women	6
Psychology as a Social Construction	9
<i>Psychological Research as a Social Construction</i>	10
Reconciling the 'Old' and 'New' Histories of Psychology	12
Questions for Reflection	13
Important Names, Works, and Concepts	14
Recommended Readings	15

Chapter 2 Touchstones: The Origins of Psychological Thought 16

Questions to Consider	16
Introduction	16
Touchstones	17
Pythagoras (570-495 BCE)	17
<i>Pythagorean Cosmology</i>	19
<i>The Pythagorean Opposites</i>	19
<i>Pythagorean Mathematics</i>	9
Plato (427-347 BCE)	23
<i>Pythagoras, Plato, and the Problem of the Irrational</i>	23
<i>The Forms</i>	25
Lao-Tsu (sixth century BCE)	29
<i>The Tension between Confucianism and Taoism</i>	29
<i>What is Tao?</i>	30
<i>The Book of Changes</i>	31
Aristotle (384-323 BCE)	35
<i>Aristotle's Differences with Plato</i>	35
<i>The Nature of Human Action</i>	37
<i>Memory</i>	38

Questions for Reflection 44

Important Names, Works, and Concepts 44

Recommended Readings 45

Chapter 3 Touchstones: From Descartes to Darwin 46

Questions to Consider 46

Introduction 46

Rene Descartes (1596-1650) 47

The Body as a Machine 49

Isaac Newton (1642-1727) 51

The Laws of Motion 53

Can Newton's Laws be Generalized to Psychology? 53

The Nature of Colour 55

The British Empiricists: John Locke (1602-1704), George Berkeley (1685-1753), and David Hume (1711-1776) 56

John Locke 56

George Berkeley 59

David Hume 60

James Mill (1773-1836) and John Stuart Mill (1806-1873) 62

Mary Wollstonecraft (1759-1797) 63

Universal Education 64

The Importance of Emotion 65

The Utopian Tradition in Psychology 65

Immanuel Kant (1724-1804) 66

Kant's 'Second Copernican Revolution' 66

Can Psychology Be a Science like Other Sciences? 69

Charles Darwin (1809-1882) 70

The Voyage of the Beagle 71

The Development of the Theory of Evolution 73

Darwin and Psychology 75

Questions for Reflection 76

Important Names, Works, and Concepts 77

Recommended Readings 78

Chapter 4 The Nineteenth-Century Transformation of Psychology 79

Questions to Consider 79

Introduction 79

J.F. Herbart (1776-1841) 80

Herbart's Influence on Educational Psychology 82

G.T. Fechner (1801-1887)	84
<i>Psychophysics</i>	84
<i>Experimental Aesthetics</i>	88
Hermann von Helmholtz (1821-1884)	89
<i>Helmholtz and the Nature of Perception</i>	89
<i>Ewald Hering (1834-1918)</i>	92
<i>Christine Ladd-Franklin (1847-1930)</i>	93
<i>The Localization-of-Function Controversy</i>	94
<i>The Study of Brain Injuries</i>	95
Francis Galton (1822-1911)	97
<i>Hereditary Genius</i>	97
<i>Eugenics</i>	98
<i>Statistics</i>	99
<i>Memory</i>	100
Herbert Spencer (1820-1903)	102
<i>Social Darwinism</i>	103
Questions for Reflection	104
Important Names, Works, and Concepts	104
Recommended Readings	105

Chapter 5 Wundt and His Contemporaries 106

Questions to Consider	106
Introduction	106
Wilhelm Wundt (1832-1920)	107
<i>Investigations in the Laboratory</i>	107
<i>Psychophysical Parallelism</i>	113
<i>Cultural Psychology</i>	114
<i>Wundt's Influence</i>	115
Hermann Ebbinghaus (1850-1909)	115
<i>The Experimental Study of Learning and Remembering</i>	116
<i>Mary Whiton Calkins (1863-1930) and the Invention of Paired Associates¹</i>	117
<i>Franz Brentano (1838-1917)</i>	119
The Wurzburg School	120
Questions for Reflection	122
Important Names, Works, and Concepts	122
Recommended Readings	123

Chapter 6 William James 124

Questions to Consider	124
Introduction	124
The Principles of Psychology	125

<i>Habit</i>	125
<i>The Methods and Snares of Psychology</i>	126
<i>The Stream of Thought</i>	127
<i>The Consciousness of Self</i>	130
<i>Attention and Memory</i>	132
<i>The Emotions</i>	134
<i>Will</i>	135
<i>Other Topics</i>	136
Questions for Reflection	137
Important Names, Works, and Concepts	138
Recommended Readings	138

Chapter 7 Freud and Jung 139

Questions to Consider	139
Introduction	139
The Unconscious	140
Sigmund Freud (1856-1939)	143
<i>Hysteria</i>	143
The Project for a Scientific Psychology	145
The Interpretation of Dreams	146
<i>The Development of the Personality</i>	148
<i>The Structure of the Personality</i>	150
<i>Religion and Culture</i>	151
<i>Freud's Death</i>	153
<i>Freud and America</i>	153
<i>Freud's Critics within Psychoanalysis</i>	155
<i>Freud and Women</i>	156
<i>Anna Freud (1895-1982)</i>	156
Karen Horney (1885-1952) and the Psychology of Women	157
C.G. Jung (1875-1961)	159
<i>Jung's Relationship with Freud</i>	159
<i>Analytical Psychology</i>	161
Questions for Reflection	167
Important Names, Works, and Concepts	168
Recommended Readings	169

Chapter 8 Structure or Function? 170

Questions to Consider	170
Introduction	170
Edward B. Titchener (1867-1927)	171
<i>Structuralism</i>	173
<i>Titchener's Experimental Psychology</i>	174

<i>Titchener and the Imageless-Thought Controversy</i>	175
<i>Titchener and the Dimensions of Consciousness</i>	175
<i>Titcheners Influence</i>	177
Functionalism	177
John Dewey (1859-1952)	178
<i>Critique of the Reflex Arc Concept</i>	178
<i>Dewey's Influence on Educational Practice</i>	179
James R. Angell (1869-1949)	180
Roberts. Woodworth (1869-1962)	181
<i>The S-O-R Framework</i>	183
Intelligence Testing	184
James McKeen Cattell (1860-1944)	184
Alfred Binet (1857-1911)	185
<i>Intelligence Testing in the United States Army</i>	187
<i>What Is 'Intelligence', Anyway?</i>	188
Psychology in Business	190
Frederick W. Taylor (1856-1915)	190
Elton Mayo (1880-1949)	192
Comparative Psychology	194
Edward L. Thorndike (1874-1949)	196
<i>Learning as the Formation of Connections</i>	197
Questions for Reflection	200
Important Names, Works, and Concepts	200
Recommended Readings	201

Chapter 9 Behaviourism 203

Questions to Consider	203
Introduction	203
Ivan P. Pavlov (1849-1936)	204
<i>Conditioned Reflexes</i>	205
<i>Speech</i>	208
<i>Temperaments and Psychopathology</i>	209
<i>Vivisection and Anti-vivisectionism</i>	209
Vladimir M. Bekhterev (1857-1827)	210
John B. Watson (1878-1958)	212
<i>Psychology As the Behaviourist Views It</i>	213
<i>Watson's Psychology</i>	215
<i>Emotional, Manual, and Verbal Habits</i>	215
Watson and Rosalie Rayner	218
Watsons Second Career in Advertising	218
Karl S. Lashley (1890-1958)	220
<i>Cortical Localization of Function</i>	220
<i>The Problem of Serial Order in Behaviour</i>	222

B.F. Skinner (1904-1990)	222
<i>The Nature of Behaviourism</i>	222
<i>Skinner's Radical Behaviourism</i>	223
The Behavior of Organisms	224
A Case History of Scientific Method	225
<i>The 'Baby Tender'</i>	227
<i>Teaching Machines</i>	227
<i>Skinner's Utopian and Dystopian Views</i>	228
Important Names, Works, and Concepts	230
Questions for Reflection	231
Recommended Readings	231

Chapter 10 Gestalt Psychology and the Social Field 233

Questions to Consider	233
Introduction	233
Max Wertheimer (1880-1943)	234
<i>Phi Phenomenon</i>	235
<i>The Minimum Principle</i>	236
<i>Precursors of Gestalt Psychology</i>	237
<i>The Laws of Perceptual Organization</i>	238
<i>Productive Thinking</i>	239
Wolfgang Köhler (1887-1967)	242
The Mentality of Apes	242
<i>The Concept of Isomorphism</i>	243
Kurt Koffka (1886-1941)	245
Principles of Gestalt Psychology	245
The Growth of the Mind	247
Kurt Lewin (1890-1947) and the Emergence of Social Psychology	248
<i>The Zeigarnik effect</i>	251
<i>Group Dynamics</i>	251
<i>Fritz Heider (1896-1988)</i>	252
Leon Festinger (1919-1989)	253
<i>Cognitive Dissonance</i>	254
<i>Solomon Asch (1907-1996)</i>	255
Stanley Milgram (1933-1984)	257
<i>Studies of Obedience</i>	258
<i>The Small-World Phenomenon</i>	261
Kurt Goldstein (1878-1965)	261
<i>Organismic Theory</i>	262
<i>The Abstract Attitude</i>	263

Questions for Reflection	264
Important Names, Works, and Concepts	264
Recommended Readings	265

Chapter 11 Research Methods 266

Questions to Consider	266
Introduction	266
Philosophy of Science	267
<i>Logical Positivism</i>	267
<i>Operationism</i>	268
<i>Where Did Psychologists Stand?</i>	269
<i>Criticisms of Operationism</i>	269
Experimental Methods	270
<i>Statistical Inference</i>	270
R.A.Fisher (1890-1962)	271
<i>Fishers Approach to Designing Experiments</i>	271
<i>The Null Hypothesis</i>	271
Correlational Methods	272
Charles Spearman (1863-1945)	274
Cyril Burt (1883-1971)	275
<i>The Burt Scandal</i>	276
Louis Leon Thurstone (1887-1955)	278
Lee J. Cronbach (1916-2001) and 'The Two Disciplines of Scientific Psychology'	279
Qualitative Research Methods	282
Questions for Reflection	284
Important Names, Works, and Concepts	284
Recommended Readings	285

Chapter 12 Theories of Learning 286

Questions to Consider	286
Introduction	286
Ernest R. Hilgard (1904- 2001)	287
E.R.Guthrie (1886-1959)	289
<i>Contiguity</i>	289
<i>Repetition</i>	290
<i>Reward</i>	290
<i>One-Trial Learning</i>	290
Clark L. Hull (1884-1952)	291
<i>The Formal Structure of Hullian Theory</i>	292

<i>The Hypothetico-Deductive Method</i>	292
<i>Postulates</i>	293
Kenneth W. Spence (1907-1967)	294
Charles E. Osgood (1916-1991)	296
<i>The Semantic Differential</i>	297
E.C. Tolman (1886-1959)	299
<i>Purposive Behaviour</i>	300
<i>Cognitive Maps</i>	300
<i>The Place-versus-Response Controversy</i>	301
The Verbal Learning Tradition	305
<i>Functionalism and Verbal Learning</i>	305
<i>Acquisition</i>	305
<i>Serial Learning</i>	307
<i>The Fate of Verbal Learning</i>	308
D.O. Hebb (1904-1985)	308
<i>The Emergence of Neuroscience</i>	308
The Organization of Behavior	310
<i>Motivation</i>	311
<i>Experiments in Sensory Deprivation</i>	312
Albert Bandura (1925-)	316
<i>Social Learning Theory</i>	316
<i>Behaviour Modification</i>	317
<i>Reciprocal Determinism</i>	318
Questions for Reflection	319
Important Names, Works, and Concepts	319
Recommended Readings	320

Chapter 13 The Developmental Point of View 321

Questions to Consider	321
Introduction	321
G. Stanley Hall (1884-1924)	322
<i>The Theory of Recapitulation</i>	322
<i>Hall's Life and Career</i>	323
<i>Hall's Recapitulationism</i>	323
<i>Questionnaires</i>	324
<i>Adolescence</i>	325
James Mark Baldwin (1861-1934)	326
<i>Psychology of Mental Development</i>	326
Heinz Werner (1890-1964)	328
The Comparative Psychology of Mental Development	329
<i>Uniformity versus Multififormity</i>	329
<i>Continuity versus Discontinuity</i>	330

<i>Unilinearity versus Multilinearity</i>	331
<i>Fixity versus Mobility</i>	331
<i>Microgenesis</i>	332
Jean Piaget (1896-1980) and Barbel Inhelder (1913-1997)	333
<i>Genetic Epistemology</i>	334
<i>The Development of Intelligence</i>	334
<i>Piaget's Clinical Method</i>	335
<i>Stages in the Development of Intelligence</i>	336
<i>Piaget as a Structuralist</i>	340
<i>Can Development Ever End?</i>	341
L.S. Vygotsky (1896-1934)	342
Thought and Language	342
<i>The Zone of Proximal Development</i>	344
Erik H. Erikson (1902-1994)	344
<i>Life-span Developmental Psychology</i>	345
<i>Epigenesis</i>	345
<i>The Eight Stages</i>	346
Eleanor J. Gibson (1910-2002)	349
<i>Perceptual Learning</i>	349
<i>The Visual Cliff</i>	352
<i>Eleanor Gibson on the Future of Psychology</i>	353
Questions for Reflection	354
Important Names, Works, and Concepts	354
Recommended Readings	355

Chapter 14 Humanistic Psychology 357

Questions to Consider	357
Introduction	357
Existentialism	358
<i>Soren Kierkegaard (1813-1855)</i>	358
<i>Friedrich Nietzsche (1844-1900)</i>	359
<i>Jean-Paul Sartre (1905-1980)</i>	360
<i>Ludwig Binswanger (1881-1966)</i>	361
The Emergence of Humanistic Psychology	362
Charlotte Malachowski Buhler (1893-1974)	363
Rollo May (1909-1994)	364
Abraham H. Maslow (1908-1970)	366
<i>The Hierarchy of Needs</i>	367
<i>The Self-actualizing Person</i>	369
<i>Peak Experiences</i>	370
The Psychology of Science	370

Carl R. Rogers (1902-1987)	371
<i>Client-Centred Therapy</i>	373
Eugene T. Gendlin	374
<i>Encounter Groups</i>	376
What Happened to Humanistic Psychology?	377
George A. Kelly (1905-1967)	378
The Psychology of Personal Constructs	379
<i>The Repertory Test</i>	380
<i>Research in Personal-Construct Theory</i>	382
Questions for Reflection	383
Important Names, Works, and Concepts	384
Recommended Readings	385

Chapter 15 Cognitive Psychology 386

Questions to Consider	386
Introduction	386
The Concept of Information	387
Noam Chomsky (1928-)	389
<i>Syntactic Structures</i>	389
<i>Cartesian Linguistics</i>	391
George A. Miller (1920-)	392
<i>The Magical Number Seven</i>	392
Plans and the Structure of Behavior	394
<i>Subjective Behaviourism</i>	396
<i>Giving Psychology Away</i>	397
Jerome S. Bruner (1915-)	397
<i>The New Look in Perception</i>	398
A Study of Thinking	399
Sir Frederic Bartlett (1886-1969)	401
Ulric Neisser (1928-)	403
Cognitive Psychology	405
James J. Gibson (1904-1979)	409
<i>Cognition and Reality</i>	410
Herbert A. Simon (1916-2001)	411
<i>Spurious Correlation and the Nature of Causality</i>	412
<i>Computer Simulation</i>	413
<i>Criticisms of Computer Simulation</i>	417
Amos Tversky (1937-1996) and Daniel Kahneman (1934-)	418
<i>Heuristics and Biases</i>	418
<i>Do Statistics Courses Help?</i>	421

Questions for Reflection	422
Important Names, Works, and Concepts	422
Recommended Readings	423

Chapter 16 The Future of Psychology 425

Questions to Consider	425
-----------------------	-----

Introduction	425
--------------	-----

Does Psychology Have Paradigms? 426

*Why Have So Many Psychologists Found the Paradigm
Concept Congenial?* 430

Ludwig Wittgenstein (1889-1951) and the Language of Psychology	433
--	-----

Psychology, Modernism, and Postmodernism	437
--	-----

Modernism 437

Postmodernism 439

The Differentiation of Psychology 440

The Future of the History of Psychology	444
---	-----

Psychology as a Global Endeavour 445

Envoi 445

Questions for Reflection	446
--------------------------	-----

Important Names, Works, and Concepts	446
--------------------------------------	-----

Recommended Readings	447
----------------------	-----

Bibliography	448
--------------	-----

Glossary	485
----------	-----

Index	497
