1 Environmental Problems and Humanity	1
Introduction: environmental problems and the global environment	1
Local and global environmental problems	4
Animal-welfarism and environmentalism	6
Theories of value	9
Environmental ethics and its neighbours	15
Theories of the genesis of the problems	17
Human stewardship of nature	21
But is caring about the environment really possible?	24
Summary	25
<i>Notes</i>	26
<i>Further Reading</i>	29
<i>Some Useful Websites</i>	29
<i>Music for Environmental Ethicists</i>	30
2 Some Central Debates	31
Dominion and stewardship	31
A recent critique	34
The emergence of environmental ethics in the early 1970s	37
Holism, anthropocentrism and biocentrism compared	39

Biocentric consequentialism	43
Alternative theories	46
Meta-ethical debates	52
Summary	58
<i>Notes</i>	58
<i>Further Reading</i>	63
<i>Some Useful Websites</i>	64
3 Some Critiques of Environmental Ethics	65
Environmental ethics, motivation and the good life	65
There is more to ethics than these promising approaches allow	68
There is more to human motivation too	73
Can environmental ethics make a difference?	75
Can values contribute to change?	78
Does a consequentialist environmental ethic have unacceptable implications?	84
Would biocentric consequentialism preserve enough species?	89
Summary	91
<i>Notes</i>	92
<i>Further Reading</i>	94
<i>Some Useful Websites</i>	95
4 Taking the Future Seriously	96
The scope and limits of future-related responsibilities	96
Some bases for future-related responsibilities	100
Some grounds for restricting future-related responsibilities	105
Restricting future-related responsibilities by discounting	109
Do human interests and environmental responsibilities converge?	111
Saving the future from environmental injustice	115
Representing the future in present decision-making	119
Summary	122
<i>Notes</i>	123
<i>Further Reading</i>	125
<i>Some Useful Websites</i>	125
5 Sustainable Development, Population and Precaution	126
The concept of sustainable development	126
Debates about sustainable development	129

Sustainable development and the debate about sustainability	132
Population policies and sustainable development	137
Population, neo-Malthusianism, justice and sustainability	141
The Precautionary Principle	144
Sustainable development and liberal democracy	147
Summary	153
<i>Notes</i>	154
<i>Further Reading</i>	157
<i>Some Useful Websites</i>	158
6 The Global Community and Global Citizenship	159
Global citizenship and a cosmopolitan ethic	159
Varieties of global citizenship and cosmopolitan ethic	164
The common heritage of humankind	169
Issues of global governance	173
Global warming: principles for a possible agreement	176
Global problems, global ethics and global decision-making	181
Summary	183
<i>Notes</i>	184
<i>Further Reading</i>	187
<i>Some Useful Websites</i>	187
<i>Glossary of Key Terms</i>	188
<i>Bibliography</i>	202
<i>Index</i>	219
