Typographical conventions and symbols xix

1 Semantics: the study of meaning 1

1.1 Language and meaning 1

1.2 The nature of meaning 4

1.3 Linguistic approaches to meaning 7

1.4 Issues in semantic theory 12

1.5 Semantic phenomena 18

Key technical terms 28

Exercises and discussion questions 29

2 Three traditions: lexicography, logic, and structuralism 32

2.1 The pitfalls of defining 32

2.2 Accuracy in a definition 37

2.3 The logical tradition 44

2.4 Classical componential analysis (CA) 51

2.5 Componential analysis in generative grammar 58

Key technical terms 61

Exercises and discussion questions 61

3 NSM and other contemporary approaches 64

3.1 The Natural Semantic Metalanguage approach 64

3.2 Ray Jackendoff's conceptual semantics 73

3.3 Charles Fillmore's frame semantics
and the FrameNet project 78

3.4 Semantics in cognitive linguistics 81

- 3.5 Back to reductive paraphrase 94
Key technical terms 95
Exercises and discussion questions 96
- 4 The semantics of emotions 99**
- 4.1 Approaches to the emotions 99
4.2 Semantic components of emotion words 102
4.3 Some English emotion words 109
4.4 Culture-specific emotions 113
4.5 Three 'anger words' in Yankunytjatjara 118
Key technical terms 124
Exercises and discussion questions 125
- 5 Speech-act verbs 129**
- 5.1 What is a speech act? 129
5.2 Searle's approach 133
5.3 Reductive paraphrase of speech-act verbs 138
5.4 Cultural aspects of speech acts 150
Key technical terms 158
Exercises and discussion questions 159
- 6 Discourse particles and interjections 162**
- 6.1 Describing particles and interjections 163
6.2 Three English particles—*or*, *too*, and *well* 167
6.3 Some discourse particles in other languages 176
6.4 A fistful of interjections 183
Key technical terms 190
Exercises and discussion questions 190
- 7 Animals and artefacts 194**
- 7.1 Semantic molecules and semantic complexity 194
7.2 The semantics of 'folk biology' 196
7.3 *Cats, mice, and rats* 203
7.4 Taxonomic hierarchies and 'hidden essences' 214
7.5 Artefact meanings 220
7.6 The meaning of *cup* and *mug* 225
7.7 Outstanding issues 234
Key technical terms 237
Exercises and discussion questions 237

-
- 8 Motion** 240
- 8.1 Approaches to space and motion 241
 - 8.2 How to know whether you're *coming* or *going* 248
 - 8.3 Motion verbs in Arrernte 258
 - 8.4 Motion verbs in other languages 263
 - Key technical terms 266
 - Exercises and discussion questions 266
- 9 Physical activity verbs** 269
- 9.1 'Manner-of-motion' verbs: *walk* vs. *run* 270
 - 9.2 'Eating' and 'drinking' across languages 278
 - 9.3 Complex physical activities: *cutting* and *chopping* 285
 - 9.4 Perfective uses of physical activity verbs 295
 - 9.5 Constructional variants (syntactic alternations) 299
 - Key technical terms 302
 - Exercises and discussion questions 302
- 10 Causatives** 304
- 10.1 How basic is BECAUSE? 305
 - 10.2 Conventional descriptions of causatives 310
 - 10.3 Productive causatives across languages 313
 - 10.4 Some causative verbs in English 321
 - 10.5 Causation and culture 327
 - Key technical terms 332
 - Exercises and discussion questions 332
- 11 Grammatical categories** 335
- 11.1 Pronominal systems 336
 - 11.2 Locational deixis 343
 - 11.3 Classifier systems 346
 - 11.4 Evidentials and experiencer constructions 356
 - 11.5 Diminutives 362
 - 11.6 Concluding remarks 367
 - Key technical terms 368
 - Exercises and discussion questions 368
- 12 Developments, extensions, and applications** 371
- 12.1 The trajectory and ongoing development of the NSM system 371
 - 12.2 The theory of semantic molecules 375

- 12.3 Language acquisition 384
- 12.4 Cultural scripts 390
- 12.5 Non-verbal communication 398
- Key technical terms 411
- Discussion questions 411

Solutions to selected exercises 415
