Introduction to School Neuropsychology	1
<i>Recognizing and Applying Neuropsychological Principles</i>	1
<i>The Book's Purpose and Structure</i>	6
<b>CHAPTER 1 Assessment and Intervention Practices in Educational Settings</b>	<b>9</b>
<i>Foundations of Intellectual and Cognitive Assessment</i>	9
<i>Measuring Intellectual and Cognitive Functioning</i>	14
<i>Principles of Effective Cognitive Assessment</i>	18
<i>Critical Issues in Assessment Service Delivery</i>	37
<b>CHAPTER 2 A Model of Brain Functioning</b>	<b>43</b>
<i>A Developmental Perspective</i>	43
<i>A Review of Major Brain Structures</i>	45
<i>The Two-Axis Model of Brain Functioning</i>	48
<i>An Axis Divided: I. Visual Processes and the Occipital Lobe</i>	51
<i>An Axis Divided: II. Auditory Processes and the Temporal Lobe</i>	56
<i>An Axis Divided: III. Somatosensory Processes and the Parietal Lobe</i>	59
<i>An Axis Integrated: Higher-Level Processes and the Frontal Lobe</i>	62
<i>The Left-Right Axis and the Cerebral Hemispheres</i>	67
<b>CHAPTER 3 Neuropsychological Approaches to Assessment Interpretation</b>	<b>85</b>
<i>Developmental Neuropsychological Assessment</i>	85
<i>The Scientific Method in Neuropsychological Assessment</i>	88
<i>Interpreting Test Results from a Neuropsychological Perspective</i>	98
<i>The CHT Approach to Report Writing</i>	114
<b>CHAPTER 4 Linking Assessment to Intervention</b>	<b>128</b>
<i>The Cognitive Hypothesis-Testing Model</i>	128
<i>Assessment Tools for CHT</i>	132
<i>Behavioral Neuropsychology and Problem-Solving Consultation</i>	144
<i>Linking Assessment to Intervention: A Case Study</i>	160

<b>CHAPTER 5</b>	<b>The Neuropsychology of Reading Disorders</b>	<b>177</b>
	<i>Historical Perspective on Learning Disabilities</i>	177
	<i>Characteristics of Children with Reading Disorders</i>	182
	<i>RDs and Brain Functions</i>	185
	<i>Instructional Strategies for Children with RDs</i>	200
	<i>Reading Case Study: Linking Assessment to Intervention</i>	201
<b>CHAPTER 6</b>	<b>The Neuropsychology of Mathematics Disorders</b>	<b>209</b>
	<i>Characteristics of Children with Mathematics Disorders</i>	209
	<i>MDs and Brain Functions</i>	212
	<i>Instructional Strategies for Children with MDs</i>	218
	<i>Math Case Study: Linking Assessment to Intervention</i>	219
<b>CHAPTER 7</b>	<b>The Neuropsychology of Written Language Disorders</b>	<b>224</b>
	<i>Characteristics of Children with Written Language Disorders</i>	224
	<i>WLDs and Brain Functions</i>	225
	<i>Written Language Case Study</i>	238
<b>CHAPTER 8</b>	<b>Neuropsychological Principles and Psychopathology</b>	<b>244</b>
	<i>The Politics of Psychopathology</i>	244
	<i>Neuropsychological Basis of Emotion and Behavior</i>	246
	<i>The Comorbidity Issue and Child Psychopathology</i>	250
	<i>Selected Childhood Psychopathologies</i>	252
	<i>Case Study Presentation</i>	276
