## Introduction

- About this course 5
- Using this teacher's book 6
- About the students' book 8
- About the questions in the students' book 9
- Matching the specification 10
- Integrating fieldwork and research into the course 18

## 1 The world at risk 20

- 1.1 What has happened to Tebua? 22
- 1.2 Hazards and disasters 23
- 1.3 Global hazards 24
- 1.4 Hazards and vulnerability 25
- 1.5 Bushfire! 26
- 1.6 Why are some places hazard prone? 27
- 1.7 Hazard hotspots 28
- 1.8 The causes of climate change 29
- 1.9 The effects of climate change 30
- 1.10 The impacts of global warming 31
- 1.11 Dealing with climate change: mitigation and adaptation 32
- 1.12 Global warming: which way now? 33
- 1.13 Strategies for dealing with climate change 34
- 1.14 Energy use, efficiency and conservation 35
- 1.15 Tackling risk and vulnerability in Bangladesh 36
- 1.16 Tackling risk and vulnerability in Indonesia 37

## 2 Going global 38

- 2.1 Taking the Mickey to the world? 40
- 2.2 What is globalisation? 41
- 2.3 Getting connected: colonialism 42
- 2.4 Global differences 43
- 2.5 Staying connected: global groupings 44
- 2.6 Strained connections 45
- 2.7 Corporate connections 46
- 2.8 Global remix: winners and losers 47
- 2.9 World on the move 48
- 2.10 Migration into Spain 49
- 2.11 Causes and consequences of European migration 50
- 2.12 Analysing population change in the UK 51
- 2.13 Megacities: Los Angeles 52
- 2.14 Megacities: Mumbai 53
- 2.15 Environmental consequences of globalisation 54
- 2.16 Social consequences of globalisation 55
- 2.17 Managing change for a better world 56

## 3 Extreme weather 58

- 3.1 Extreme heat 60
- 3.2 From one extreme to another 61
- 3.3 Increasing the risk 62
- 3.4 One extreme storm 63

- 3.5 What caused the Boscastle flood? 64
- 3.6 Managing flooding 65
- 3.7 Hurricane Katrina, August 2005 66
- 3.8 All about hurricanes 67
- 3.9 Managing hurricanes 68
- 3.10 The Big Dry 69
- 3.11 What caused the drought? 70
- 3.12 Managing Australia's water 71
- 3.13 Gloucestershire under water 72

## 4 Crowded coasts 74

- 4.1 The coast: not all sand and sea 76
- 4.2 The shift to the coast 77
- 4.3 Crowded coasts: Bournemouth 78
- 4.4 Conflict on the coast 79
- 4.5 Industry on the coast: Southampton Water 80
- 4.6 Protest on the coast: Dibden Bay 81
- 4.7 The Holderness Coast ... going ... going ... 82
- 4.8 Managing erosion on the Holderness coast 83
- 4.9 Thames estuary at risk 84
- 4.10 Can coasts be managed sustainably? 85
